

Specification Sheet

Model: HX-R-72

Features

PolyCoil heat exchangers are an all plastic heat exchangers with superior corrosion resistance. They provide high heat transfer performance though 440 ultra-thin walled tubes. Superior durability is achieved by a plastic-to-plastic weld of each individual tube to their manifold allowing for high operating pressures. PolyCoil exchangers are extremely light weight making installation easy and provide a very low internal pressure drop. They are suitable for use with air-to-liquid and liquid-to-liquid applications. Multiple banks/arrays of exchangers can be connected together easily utilizing a built in compression snap clip (supplied) allowing the side frame on each unit to be firmly linked. All heat exchangers undergo two pressurized leak detection tests before shipping.

Applications

- Cooling Towers
- HVAC (non-refrigerants)
- Geothermal
- Marine, Swimming Pools
- Automotive
- Radiant Heating/Cooling

Materials

Exchanger	Nylon
Baffles	ABS, Nylon
Side Frame	PVC, Nylon

Physical Details

Dimension (LxWxH)	77.65in x 11in x 3in
Tube Length	72.0 in
Dry Weight	9.9 lb
Internal Fluid Volume	1.27 gal
Number of Tubes	440
Tube Diameter	0.118in

Connections

Available: (1in) Hose Barb, PEX, NPT

Clamp Torque Spec 35 in-lb

Operating Conditions

^	Nylon
Operating Pressure	80 psi @ 80°F
Burst Pressure	400 psi
Temperature Range	-40°F to 185°F

Flow Rate 60 GPM (max)

Fluid Compatibility

Water **Glycols** Salt/Brine Solutions Hydrocarbons & Oils Chloride Solutions (Nylon 612 only) *For additional fluids or a comprehensive list please contact us

Warranty

3-year limited warranty on all materials

Durability

250,000 Pressure Cycle @ 120psi
